

Rohan Nigam for VP of Norcal

Qualifications + Characteristics

Currently, I serve as the VP of Career Development for NorCal DAT. Since I frequently communicate and collaborate with the current VP of NorCal, I am experienced and understand the common jobs of a state officer.

Having been VP of Marketing for Washington High School DECA last year, I understand the importance of responsibility. While holding this position, it was my job to maintain and regularly update the organization's social media accounts. In addition, it was my duty to ensure that the Media Director and Website Director were on task.

Qualifications + Characteristics

As the class Treasurer for my school, I worked strenuously with the other officers to give our class the best high school experience. We had to work together to lead a class of over 500 students through all of the school activities. This position taught me how to work with others.

For the five years that I have been a boy scout, I have undertaken several leadership positions within my troop. Through these positions I had to make announcements and teach important lessons to the rest of the troop. This task required me to have loud and clear communication.

I have held several other leadership positions that make me the perfect fit for this position. I created my own non-profit to teach computer science to students in my community, tutor at JEI Learning Center, and teach tennis to younger kids.

Plan

Enhance Judge Training

- Revise the guidelines given to judges
- Make guide available electronically for all judges
- Results in more effective judge training

Improve Mentorship Program

- DAT partners with small/medium sized chapters
- Provide chapters with resources and support
- Keep chapters involved with NorCal DECA and its activities

Stay Connected

- Hold events for all of NorCal (fundraisers, conferences, etc)
- Keeps chapters connected and united
